I absolutely recommend this game! I usually don't play games like this so I was a bit cautious about it, but it got me HOOKED and surprised how addicting it was! Some levels took me forever to complete but when I did, it was INSTANT SATISFACTION! If I have to come up with some negatives I would probably say don't get frustrated on the robots controls! It takes a while to fully master it and when you do, NOTHING is going to stop you! Unique gameplay, great art and awesome music alone should be the reason to get this game! Buy this game if you're up for the challenge. :)

I did a quick stream of this game if you want to check it out: <https://www.twitch.tv/bearwithus/v/112899305>. Fun game put about 15 hours into beating it. Very solid old schol RPG made by RPG maker. Not alot of excitement or crazy plot twists but nicely executed without any serious jumps in difficulty or excessive grinding. The Monster stone system is great and really aids in not having to grind through monsters while retreacking through areas.. As an achievement hunter I don't feel much interest in a game without achievement but this game was an exception and I finished it. I don't know why this game has many negative ratings but my rating is obviously positive. Although the story progresses through a semi-fantasy method about how to impress girls by a guy, yet the basic is perfectly right that get hassle free money and give them gifts yes, money is the only thing that impres the girls no matter how much ridiculous it sounds but that's the ultimate fact deep in a woman's mind... whatever the reason is "money is sweeter than honey" for them. :XD

And yes this is an easy game just for very light entertainment.. maybe that's another reason why cyber-hardship lovers [who lacks hardship in their real life and so searches in games] rated this game not so positive.

The only cons I found there should a button to exit [instead of Alt+F4] and reload game at any point. Thanks to developer.. Best lightbulb change simulator in the market \ud83d\udc4d. It was fun for about 8 heures. Then it got really boring because of repetitive missions just in different areas with differently named enemies. The slow motion kill cams of this game are very cool anyway and you can outsmart the AI in many different ways, which is good because it leads to a lot of creativity on how you approach the missions. However, after a few heures the game got really boring really fast.. Probably great fun in 1994 when it was released but didn't age well

This is a good game the only issue I have with it is that it takes for ever to move around the maps looking for animals unless your in a vehicle. Maybe the developers could look at increasing the rate of movement when running. :-). I just played Turba for 15 minutes, to get the Summer achievement that was added to it.

Afterward when I got up from my chair, I stubbed my toe very hard, fell and bashed my arm on a bookcase as I tried to catch my fall, scraped my leg rather painfully, and finally broke my fall by smashing my hand against the sharp corner of a wooden box. My arm hurts, my leg hurts, my hand hurts, and my toe is bleeding a bit. I also seem to have punched myself in the stomach or something on the way down, I'm not even sure on that, but it hurts there too.

Still, if I had no choice but to repeat one of those two experiences, I would not choose Turba.. Elwurd is my favorite Vriska Also it was nice to see Bronya again

Good to have some slam doors in TS, but not at this quality. Buy it in a sale and get some freeware mods for it.. Needs nudity, but the girl with glass's school uniform is pantyless, which is awesome!

Easy game if you like guitar hero. My brain actually learned some new tricks with the one, simple mini game.

Needs nude mode for private dance. WTF, but otherwise worth a buck...or two. Side note: The girls are too girly. Make some women next time. Like Chun-li..... Mmmmmm. Chun i and Camy dance. Xmas is saved. its a great aircraft carenado did a 9V10 job making the C172N

has great flying characteristics

. Great game. Checks a lot of boxes for me. I've played so many of David's games over the years. This will be another I spend hundreds of hours playing.

Check out the discord and watch the twitch streams for more inside information to the development process.

Joined Early Access and couldn't be happier helping to make the game better. So much potential for this game that I love seeing

the new features and content.. Great game, highly recommended!. Get the trilogy!!! Again more of the same Alien Breed action.. Terrific puzzles, bad platforming, terrible combat.
